PROFESSIONAL SUMMARY

AI/ML undergraduate skilled in Machine Learning, Deep Learning, and Full-Stack Development with experience building scalable applications and intelligent systems using Python, Java, TensorFlow, PyTorch, Flask, and Streamlit. Strong foundation in data structures, problem solving, API integration, and end-to-end ML workflows.

EDUCATION

Vellore Institute of Technology, Bhopal

2023 - 2027

B.Tech - Computer Science and Engineering — CGPA: 8.67

Bhopal, Madhya Pradesh

TECHNICAL SKILLS

Languages – Java, Python, SQL

Frontend – HTML, CSS, JavaScript, React

Backend – Node.js, Express.js, REST APIs, JWT Authentication

Databases – SQL, Supabase, PostgreSQL

AI/ML – TensorFlow, PyTorch, Pandas, NumPy, Scikit-learn, Keras, LLMs

Cloud & Deployment – Firebase, Docker, Vercel, Render

Tools – Git, GitHub, VS Code, MS Excel, Jupyter Notebook

PROJECTS

InterviewIQ.AI | AI Mock Interview Platform | Full-Stack Project | [🔗](#) | Live

Jul 2026

React, Express.js, Supabase, Gemini AI, Firebase, Razorpay

- Built an AI-powered mock interview platform generating role-specific interview questions using Gemini AI.
- Implemented AI evaluation, voice-based interviews, adaptive difficulty, and performance analytics.
- Developed a secure full-stack application with JWT, Firebase, Supabase, Razorpay, and deployed on Vercel & Render.

Fashion MNIST Classification System | Deep Learning Project | [🔗](#)

May 2026

Python, TensorFlow, Streamlit, Docker, Jupyter Notebook

- Built a CNN-based Fashion MNIST image classification system using TensorFlow and Keras for clothing category prediction.
- Performed image preprocessing, model training, and evaluation using Deep Learning workflows.
- Developed a deployment-ready Streamlit application with Docker integration for real-time predictions.

AIML-Learning | Advanced ML & LLM Engineering | [🔗](#)

Feb 2026

Python, PyTorch, Transformers, Jupyter Notebook

- Implemented transformer concepts including tokenization, embeddings, and self-attention from scratch.
- Built neural network and GPT-based training workflows using Python and PyTorch.
- Explored pretraining, fine-tuning, and text generation techniques through hands-on notebooks.

CERTIFICATIONS

Generative AI | [Oracle](#)

Jun 2025

Understanding of Generative AI concepts, LLMs, and AI-driven content generation.

Applied Machine Learning in Python | [Coursera](#)

Apr 2025

Completed ML course with 94% score covering classification, regression, and evaluation techniques.

ACHIEVEMENTS

- Semi-finalist in Smart India Hackathon 2025.
- Solved 100+ questions on HackerRank.

LEADERSHIP

AI CLUB | Team Lead (PR & Outreach Team)

Jul 2025 - Present

Served as core coordinator for AI Club of VIT Bhopal and planned workshops and technical events.
